Re: Procurement Threshold

Date: October 26, 2007

Recently the Indiana General Assembly raised the small purchase threshold to \$150,000 for public entities. The federal guidelines, 7 CFR Part 3016(d)(1) for public program sponsors require the use of the most restrictive threshold between the State and Federal guidelines. The current Federal threshold is set at \$100,000 for small purchases, and will until further notice be the new small purchase threshold.

All other procurement guidelines and requirements remain the same. If there are any questions please e-mail Frederick E. Powell at fpowell@doe.state.in.us.
